

Interesting to Sawyers!

WE wish to dispose of an interest—one-fourth one-third, or one-half in our New Steam Saw Mill (upright saw) on Salt River.

This Mill has as fine a location as any Country Mill in the State; being on Salt River, at the point at which the Hannibal and New London Plank Road crosses it. It is surrounded by a fine rich neighborhood, improving rapidly, requiring a vast amount of lumber; and then only 7½ miles from Hannibal, from which, large logs can be had at good prices. Our facilities for obtaining the various kinds of logs, as Black Walnut, Maple, all kinds of Oak, &c., are scarcely equaled by any other Mill. Salt River for 20 miles up, abounds with fine timber just named, which can be at moderate prices.

To a first rate practical sawyer, an immediate application, we will make an interest as above, on terms very accommodating. No other, than a thorough experienced sawyer, need apply.

CLAYTON & HAWKES,

THE INTRODUCTION OF

FILLEY'S STOVES

Into Northern Missouri, to any extent, has been in the last three years; since which time they have been gradually increasing the manufacture and sale of them; and although, owing to their being light and smooth, and something new, some little difficulty attended the sale and use at first, yet by always making Stoves and Castings of the best quality of Scotch Pig and Missouri Mountain Iron, they have proved to withstand fire better than any other Casting made in the western country. The surface castings and hollow-ware particularly, have been superseded by it, wherever it has been brought into use, and always given satisfaction. Having lived here a number of years, and being permanently located here, purchasers can rely on our guarantee as to the quality of the article sold by us; and as to the operation of our celebrated Prize-Premium Cook Stove, just read the certificates of those who have used them, and are using them now. And another advantage a purchaser will have in buying a St. Louis stove of us, he would not only be getting a stove made of the best material in the world, but he can at any time get an odd piece or plate without any charge, by letting us know that such is wanted, as all our stoves are warranted, and, in case of imperfection, the article will be promptly made good to the purchaser, which he will not find the case with Cincinnati, Chicago, Pittsburgh, and Eastern made Stoves, as you cannot get any odd pieces. Even if they were warranted, it would be impossible to get odd plates from such a distance.

We, the undersigned, having used the St. Louis Stoves manufactured by G. F. Filley, of St. Louis, and sold by CARTER W. BRYAN, at Hannibal, Mo., take pleasure in recommending them to the public as superior in point of draft, durability, economy, convenience and ease of regulation, to any stove which we have ever used:

NEW COOK STOVES!!
Persons wishing to buy stoves, should give us a call, and examine our new patterns of

Having secured the agency of them for this city. This stove possesses advantages over common stoves, in thickness of the plate, and improvements in draft. It is given up by all stove dealers and manufacturers, to be the best pattern for a descending flue, of any stove now made East or West.

This stove was patented September, 1852, and wherever they have been used, have given general satisfaction. This stove weighs some forty pounds more to the number than any other stove ever brought to this city. The plates in them are from one-half to three-fourths of an inch in thickness. No. 1 weighs over 200 pounds. We warrant them all against fires. These stoves have a Patent Hot Air Flue, which carries the heat that is generated under the fire-plate down the front part of the stove, between two thick plates to the draft at the bottom of the stove, thereby adding great heat to bake with on the bottom, and remedying that which has always been a fault with stoves of a descending flue, heretofore. FIELD'S SCRAP BOOK—New Edition.

Literary and Miscellaneous Scrap Book.

CONSISTING of Tales and Anecdotes—Biographical, Historical, Patriotic, Moral, Religious, and Sentimental Pieces, in Prose and Poetry. Compiled by William Field. Second edition, revised and increased.

The Foot-path and Highway; or,

WANDERINGS of an American in Great Britain, in 1840 and '52. By Benjamin Motzen. This volume includes the observations of the author, made during eight months' wandering, as an correspondent for American Journals; and as he traveled much on foot, differs essentially from those on the same countries, by other writers.

New Themes for the Protestant Clergy;

CREEDS without Christianity, Theology without Humanity, and Protestantism without Christianity; with Notes by the Editor on the Literature of Charity, Population, Pauperism, Policy, Agriculture, and Prostitution. The great question which this book discusses is, whether the Church of this age is what the primitive Church was, and whether Christianity—both masters and people—are doing their duty. Our author believes not, and, to our mind, he has made out a strong case. He thinks there is abundant room for reform at the present time, and that it is needed almost as much as in the days of Luther.
